

ANGLO

REINFORCEMENT
YOU CAN TRUST

ANGLO EUROPEAN
IMPORT-EXPORT LTD

ALUMINIUM COUPLER

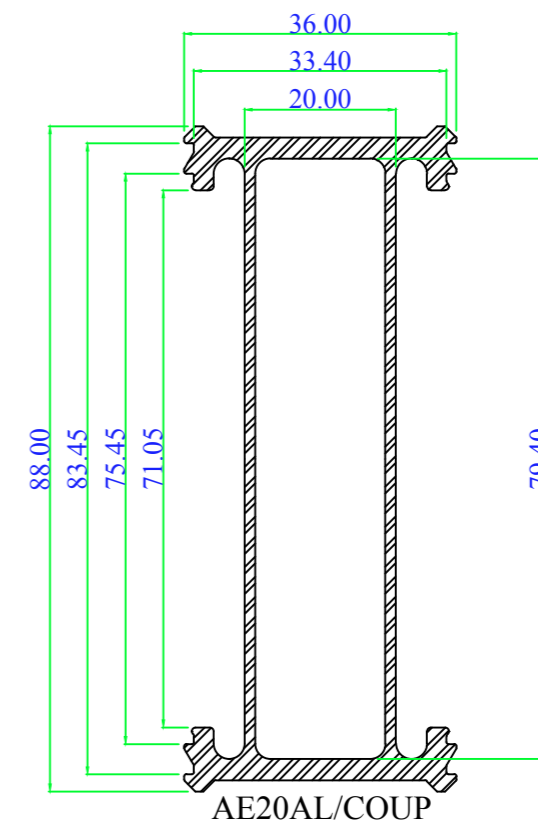

Anglo European is now the UK's foremost supplier of galvanised reinforcement for the trade window fabricator. Since opening in 1989, Anglo has grown its reputation on high quality manufacturing, rapid delivery and professional customer service.

The success of the business has been built on supplying quality products, at competitive prices, backed with unrivalled levels of service and turnaround times.

Investments in manufacturing equipment, logistic solutions and employees have allowed Anglo to continue expanding its customer base and deliver efficiencies back to the marketplace.

Operating from a two acre site in Newton Heath, Manchester, we service the whole of the UK and Ireland with bar length and cut to size palletized reinforcement for the PVC-u industry.

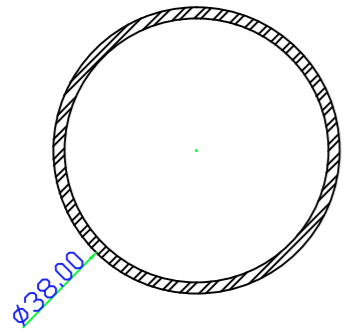

Today, 23 years on we are still as dedicated as ever, and are constantly striving to improve our product range, which now stands at 200 plus sections. Coupled with our bespoke systems and traditional aluminium profile products, we believe Anglo can provide a complete solution to your particular reinforcement needs.
